Work-Based Learning

- Work-based learning is your chance to discover things you can't learn in a classroom.
- Get inside information about the career you're interested in or simply get a taste of what it's really like on the job.
- Work-based learning includes internships, mentoring, and apprenticeship.
- It's a good way to test-drive a career.
Work-Based Learning

• A structured experience that connects the student’s career goal and classroom learning with a productive work environment.

• Work-Based Learning is NOT a program to get out of school early. It is an extension of the high school curriculum.
